

WELDED WIRE REINFORCEMENT

DWR® Welded Wire Reinforcement Mesh is a welded steel wire reinforcement mat designed for reinforcing concrete. Also known as **WWR**, it can be produced with **W-Smooth/Plain** wire, or **D-Deformed** wire.

WE ARE A PROUD MEMBER OF

APPLICATIONS

- Pre-cast structures • Slab on grade • Structural Slabs
- Tilt-up construction • Barrier walls • High rise towers
- Stirrup tie cages.

ADVANTAGES

- High strength steel.
- High strength standards.
- Easy and fast to install.
- Short delivery lead times.

OFFERS SAVINGS IN LABOR COST UP TO 75%

REBAR VS. DWR WELDED WIRE REINFORCEMENT MESH

MEETS

ASTM A1064, IBC/ACI, AASHTO.

One of the lowest CO₂ emissions per ton of steel in the world.

BUILDING AND SECURING YOUR FUTURE

WELDED WIRE REINFORCEMENT

We offer a broad range of wire diameters and dimensions in rolls and sheets to meet and optimize your design requirements, helping reduce waste material vs using rebar.

STRUCTURAL WELDED WIRE REINFORCEMENT ENGINEERING MESH

We have state of the art technology and equipment to manufacture high quality structural products, in lieu of independent number 3, 4, 5, 6, 7 and 8 rebar elements. Our products are tested and certified in our on-site testing laboratories by experienced quality control teams.

Meet the ASTM-A-1064, IBC 1903.5, ACI 318, AASHTO M221 & M225 standards.
